Turn Your Hobby into a Business Embroidery Workshop

This Embroidery Workshop is open to everyone of any skill level. Without knowing the basics, you can instantly learn how to create beautiful embroidery. Not only is it a great hobby but it can also bring you a variety of opportunities to generate money.

Join us in learning how to embroider and discover ways you can use it to start your own business.

This workshop will be hosted by Leticia Coronel, Paraguayan producer and audiovisual director resident in Uruguay. Leticia began embroidery as a search for personal balance and little by little this manual work came to occupy her entire being. This year she created **Storyborda**, whose name derives from a combination of her passion for cinema and embroidery. Under this name, she sells a collection of jewelry that she calls her “embroidered jewels.”

**FREE Event- Open to the General Public-
Basic Material and Refreshments Included**
