

Small-Medium Business Energy Efficiency Programs

Join NYC and Westchester businesses, non-profits, schools and more, saving energy and money by making energy-efficient upgrades.

We'll cover up to 70% of the upfront costs of upgrades like LED lighting, HVAC systems, refrigeration, Wi-Fi thermostats, and heat pumps in facilities with an active electric or gas account with Con Edison.

These upgrades can help lower energy costs, reduce maintenance costs, and get your space in compliance with local laws.

Learn more at conEd.com/SmallBusiness and conEd.com/CleanHeatSmallBusiness.

Who's Eligible?

Businesses, non-profits, houses of worship, veteran organizations, and schools with <300 kW demand are all eligible.

How to Participate

1. Submit an interest form at conEd.com/Interest to get started today. Our partners at Willdan Energy Solutions will reach out to help you understand which upgrades might be right for your business and answer any questions you may have.
2. Select an approved contractor from conEd.com/ParticipatingContractor or have yours apply on conEd.com/ContractorNetwork.
3. The contractor visits your business and recommends energy-saving upgrades. They'll also tell you how much it will cost and how much Con Edison will cover. You decide if and when the work gets done.
4. The contractor performs the work. Con Edison pays up to 70% of the cost directly to the contractor, and you pay the difference. No waiting for rebates.
